

Week 1 – Task 3: AI vs ML Research Presentation

Objective:

Develop conceptual clarity about AI, ML and Deep Learning.

Instructions:

- Create a 5-slide PowerPoint presentation.
- Explain AI concept.
- Explain Machine Learning concept.
- Differentiate AI, ML and Deep Learning.
- Explain Types of AI.
- Add one real-world application example.
- Use AI tools but rewrite content in your own words.

Submission Requirements:

- Submit PPT file.
- Mention which AI tool was used.

Learning Outcome:

Students will strengthen conceptual understanding and presentation skills.
